ARCTIC DRILLING

In the Pacific Northwest, Occupied Coast Salish Territories, Port of Seattle, Duwamish and Suquamish Territory, or fight Shell from wherever you are and share your stories...

SHELL.NOBLOGS.ORG

Beginning in October, 2015 the first support ships from Royal Dutch Shell's arctic drilling operation will be returning from their arctic mission for repairs and off-season rest in the port of Seattle. In November the Polar Plunderer and Ignoble Despoiler should arrive. They intend to depart again for another season in June 2016....we intend to stop them.
